Preliminary Amendment National Stage of PCT/JP2005/004424 Attorney Docket No. Q97427

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

Please cancel claims 1-5 and add new claims 6 through 13.

- 6. (new) A subpixel forming a pixel of a color display screen, comprising: one display portion; and a plurality of thin film transistors for driving the display portion, wherein the plurality of thin film transistors are arranged such that their channels are in parallel to each another.
- 7. (new) The subpixel according to Claim 6, wherein provided that a length of one side of the subpixel is 1, a channel width of at least one of the plurality of thin film transistors is 0.4 or more.
- 8. (new) The subpixel according to Claim 6, wherein the thin film transistors are organic thin film transistors or amorphous Si thin film transistors.
- 9. (new) The subpixel according to Claim 7, wherein the thin film transistors are organic thin film transistors or amorphous Si thin film transistors.
- (new) The subpixel according to Claim 6, wherein
 the display portion is an organic electroluminescence(EL) element.
- 11. (new) The subpixel according to Claim 7, wherein the display portion is an organic electroluminescence(EL) element.

Preliminary Amendment National Stage of PCT/JP2005/004424 Attorney Docket No. Q97427

- 12. (new) The subpixel according to Claim 6, wherein the channels of the plurality of thin film transistors are subjected to a rubbing process.
- 13. (new) The subpixel according to Claim 7, wherein the channels of the plurality of thin film transistors are subjected to a rubbing process.
